*CapRac's unique design allows users to securely mount cargo to the roof of their truck cap.*

### Built to take a beating

- Rugged, rust-free aluminum crossbars.
- Solid powder-coated cast ZAMAC bases.

### Breakthrough design

- Sleek, low profile stance, minimizes wind noise.
- Swivel bracket and wedge gaskets adapt to tapered cap roofs.
- Dual concealed fasteners provide straight forward installation.

### Premium performance

- CapRac mounts in minutes to any truck cap.
- Lightweight (26 lbs.).
- Tiedowns slide/readjust with a twist to suit your cargo.

The **CapRac** – a TracRac engineered solution to the thousands of drivers who use a cap to secure and protect their tools and building materials.

### Standard System Includes:

- 2 Overhead Racks
- 4 Crossbar Tiedowns
